TUGAS

Code:

```
Tugas.cpp
        #include <iostream>
        #include <stdio.h>
        using namespace std;
 4
 6 ☐ int main() {
             float a, b, c, d, total, rata2;
 7
8
             string nama;
             cout<<"Masukkan Nama: "; cin>>nama;
cout<<"Masukkan Nilai Pertama: "; cin>>a;
cout<<"Masukkan Nilai Kedua: "; cin>>b;
cout<<"Masukkan Nilai Ketiga: "; cin>>c;
cout<<"Masukkan Nilai Ketiga: "; cin>>c;
 9
10
11
12
13
14
             cout<<endl;
             cout<<"Data Nilai "<<nama<<endl;</pre>
15
              total = a + b + c + d;
16
             cout<<"Jumlah Keseluruhan : "<<total<<endl;</pre>
17
             rata2 = total / 4;
18
             printf("Rata-Rata Nilai : %.2f", rata2);
19
20
21
              return 0;
22
```

Output:
